MP RURAL ROAD DEVELOPMENT AUTHORITY**STANDARD SCHEDULE OF RATES FOR ROADS, CROSS DRAINAGE WORKS & MAINTENANCE OF ROADS****PREFACE**

First SSR of MPRRDA, was made applicable from 23rd July 2005 and subsequently revised and updated on Jan. 2006, Oct. 2006, Jan.2008, March 2009, June 2011, May 2012, August-2013, May 2014, 01 Sept. 2017 (SSR with zero present input tax) & 05 Nov. 2019 (SSR with zero present input tax) These were prepared on the basis of "Specifications for Rural Roads" and "Standard Data Book for Analysis of Rates for Rural Roads" published by IRC for Ministry of Rural Development and applicable provision of MoRTH.

With the introduction of GST by GoI and GoMP with effect from 01st July 2017, GST have been imposed as new output tax on works contract with provision of input tax credit. SSR was last revised in Nov. 2019. To keep the pace with dynamic movement of market prices for road construction materials, labour charges and inputs of constructions, it has been constant endeavor of MPRRDA to revise the SSR.

We have tried to bring in latest specification in our SSR to help our field units to use it in construction. To name a few, the items like use of plastic waste in OGPC and use of emulsion in seal coat are incorporated to help prepare the DPRs as per requirement of MoRTH specifications. Clearly revision of SSR is a meticulous exercise involving series of activities including experience gained from execution of work, innovations done in the field and incorporation of instructions issued by IRC and NRIDA. **The present SSR shall be applicable w.e.f. 01.01.2024**
